### GLENN STECKLING AND GEORGE ADAMSKI

In the last issue we heard of Glenn Steckling's talk at the International UFO Conference. This talk on YouTube and his excellent DVD, show that despite his many detractors it is likely that George Adamski's contacts were genuine after all, despite the volume of reports of less pleasant encounters with extraterrestrials.

Since then an amazing question and answer session with Mr. Steckling was found. This also suggests that Adamski's pronouncements about the environments of the planets in the solar system were true - that, despite the massive weight of contradictions, they are not hostile to life. This, of course, must if true involve an immense conspiracy, in the light of information apparently received from space probes etc. Also it suggests that the rise of the "abduction" scenario rather than the "contact" one, may at the very least, not be the only truth involved. Finally, and possibly most significantly, is the last sentence, which suggests personal experience that, as Adamski claimed, the space people do not age as fast as us - presumably because individuals met in the time of Adamski have been met later and been seen not to have altered. This suggests that far from being the only known abode of life, Earth may be more hostile than the other planets.

I have always supported the Adamski cosmology - please see website *All the Planets are Inhabited!* at <http://www.jimgoddard.myfreeola.uk/atpai>.

#### The Adamski Flying Saucers are Real

Q: I would like to know when and how you got involved with the Adamski Foundation, was it before or after you had seen a flying saucer?

A: My parents - born in Germany - witnessed both Saucer and Cigar shaped UFO's during the war years and my father already tracked such worldwide sightings on a large planetary map. In 1960 we immigrated to the United States and again witnessed several sightings during our travels.

One such dramatic sighting was in the spring of 1963 - a Bell shaped Saucer hovering clearly visible between one and two thousand feet directly overhead in Downtown Washington D.C. More than 30 other witnesses were present including a newspaper reporter who published the account the next day in the *Washington Daily News*.

Upon seeing this type of craft so close, my father researched and found the exact duplicate photographed by George Adamski.

This led to contact and eventual direct association with George until his death two years later in 1965. During this time we had the honor of shared experiences and sightings while in his company.

Ever since Adamski's passing, we have been involved in the Foundation. In the mid 1970's, my father shared directorship with Mrs. Alice Wells - a long time associate and also witness at the Desert Center meeting of 1952. He served as sole Director after Mrs. Wells' passing in the early 1980's and upon my fathers passing in 1991, my mother and I - along with numerous dedicated volunteers, continue this work and now jointly administer the Foundation. Therefore one could say, I have been immersed in this field my entire life.

Q: Have you ever seen a "Venusian Saucer" if so when and where? Were you alone? Are you a relative to Fred Steckling, the author of *We Discovered Alien Bases On the Moon*?

A: Yes, several times, in several locations. Typically in the company of others but sometimes alone and occasionally while piloting aircraft as well. I am Fred Steckling's son. I assisted my father on the original text of *Alien Bases on the Moon*, and since his passing in 1991, by request, I have added several new chapters to the newer edition now available.. *Alien Bases on the Moon II*

Q: Do you know if Fred Steckling has been investigating Russian Lunar Data?

A: Over more than 30 years dedicated to this subject, my father talked and associated with innumerable people from all professions and backgrounds. During those many years, he was invited to interact with 22 scientists at NASA's Goddard Space Flight Center, where he presented Adamski films and materials, including to Col. Freeman and his staff at the Pentagon.

He did the same by invitation from Lord Clancarty before a select committee of the House of Lords, and in many other countries on television and radio.....

During our last European trip together in 1989, he spoke directly to a group of former Soviet Scientists about this and other related subjects.

Q: I read in William L. Brian's *Moongate* about the unexpected pull of Moon at Apollo 11 - 43,495 miles. I wondering if Fred have tried to obtain Russian satellite data from their Lunar program?

A: I. This was not really unexpected for this also coincides with Werner Von Braun's report in his book of the exact same distance, so those on the Apollo project were aware of it....

*The only picture taken at the Desert Center contact*

(*History of Rocketry & Space Travel* by Wernher von Braun and Frederick I. Ordway III, 1969 Edition). According to *Time Magazine* July 25, 1969 "At a point 43,495 miles from the moon, lunar gravity exerted a force equal (the neutral point) to the gravity of the earth, then some 200,000 miles distant." This means that the moon's gravity is around 64% of the earth, not the 16% mentioned earlier (That's why the *Swedish National Encyclopedia* never mention the moon's gravity!) - Hermes

2. Discretion often opens doors...officially - no...

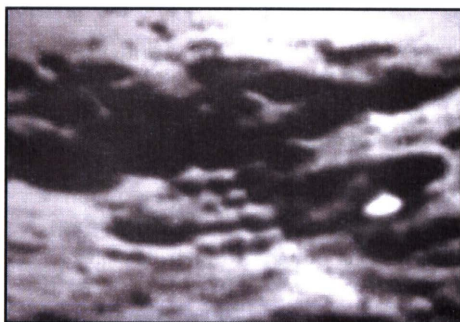

Q: Has he verified the famous 69-HC-431 photo of the Moon?

This photo that show the atmosphere of the moon as a thin blue band appeared first in the 1971 edition of *Encyclopedia of Discovery and Exploration*, volume 17, page 13, chapter *The Moon and Beyond* by Fred Apple.

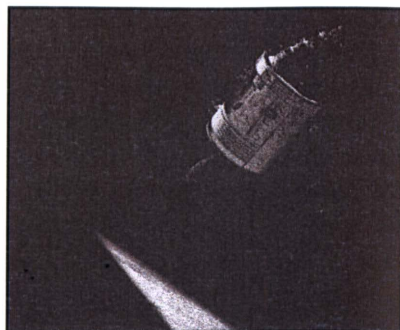

A: I believe the lunar photos stand strongly for themselves...such were just a fraction of what we found and made available, and a fraction still of what is yet to be researched and discovered. The ones we originally ordered and purchased from NASA remain in our vaulted archives...

Q: Do you know if it possible to obtain NASA photos of the Moon through the World Wide Web? I would like to put up a copy of the blow up photo Lunar Orbiter V No. 67-H-1135 at my website found on page 39 *We Discovered Alien Bases On the Moon* Can I copy it from the book or should I write NASA for a copy?

A: To obtain original reproduction quality copies requires ordering from NASA. To my knowledge such continue to be public domain...

*Craft and structures in lunar crater*

*The moon with its atmosphere and Apollo 10*

Q: Where are the Adamski's original negative photos today?

A: Locked up in our vault and archives

Q: Have the negative been investigated by experts after Adamski's death?

A: All those who have examined the photos and negatives have never questioned their integrity. As you know, Sherwood did so with Kodak as well ... The principle

of telescopic photography is very simple, and with 1950s and 60s technology, the graying effect of telescopic photos cannot be faked. AND of course, the motion picture footage remains some of the best and most authentic in civilian hands ..... If you look on our website you will find a copy of the Affidavit from the photo developer who examined and printed the original negatives. <http://adamskifoundation.com/html/AboutGA.htm>

Q: What do you say to those who criticize Adamski's photos?

A: Sometimes people forget that if you want to take a good photo of as an example - the scoutship, Adamski had to take perhaps a dozen photos before he was satisfied. And that is the reason why I can laugh at those who criticize Adamski's photos. While some say the photos are too blurred, other say they are too sharp! Of course, only the best photos are published in books and newspapers. The rest are in our vault.

Q: Are you going to publish all Adamski's photos in the future?

A: More photos and articles will be published in the next printing of *Beyond the Flying Saucer Mystery*. Hopefully it will be released in 2011.

Q: Are there UFO photos by Adamski that has never been published?

A: Yes

Q: Do you plan to release other material as well?

A: We are working with digitalizing and transferring George Adamski's 8 mm and 16 mm to DVD. When we are finished, we plan to take up the work with digitalizing around 50 soundtapes that involve lectures and private meetings and transferring them to CD. And finally we plan to write an Adamski biography that are built on chapters written by some of Adamski's co-worker. It is a really important project.

Q: Is the Adamski's correspondence still available? and if so where is it?

A: All in our archives, including the papers of CA Honey which were donated to the Foundation after his death several years ago ...

Q: What is your opinion about Adamski's teaching in Tibet? 1936?

A: This was due to Adamski's time spent at a special location there for six years. This school was not of the type of Tibetan lamasery which people would associate to with such a location today ...

Q: Was Adamski a member of the Theosophical Society?

A: No not to my knowledge and I would have to research further. Over the years all kinds of groups sent Adamski memberships, etc, as he became known, in hopes of associating to his fame. For instance he got a membership from NICAP in the late

1950s but he never cared for or gave much attention to such things. Adamski always felt it was best to remain the individual and not be associated with any group or official organization which would eventually compromise his ability to tell the truth ... And that was his exact reasoning for turning down the UN seat from U Thant in Jan of 1965.

Q: Carol Honey claimed that he had meet the spacebrothers, what is your opinon about it?

A: Originally Honey did meet the brothers through Adamski - several times for during those early years these contacts would be often visiting Adamski on the property ... HOWEVER, Honey wanted more, especially a ride in a flying saucer and Adamski told him that he did not make those decisions or arrangements, only the space contacts decide who goes and who does not (This also was the wish of Desmond Leslie, however disappointed, he did not go as far as Honey) .... Honey was enraged and began to make Adamski all kinds of trouble, including trying to steal his copyrights. So Adamski had to take a lawyer to get Honey to stop ... All these original letters and records exist in our archives. Adamski disassociated himself with both Honey and Zinstaag by 1963, but both used George for many years after GAs death in order to make a name for themselves and still denounce George with their misinformation.... Most despicable.

Q: Do you believe that there are living spacebrothers on the ground on every planet in our solarsytem? The spacebrothers told Adamski that they were living on the Moon, Venus, Mars and Saturn? Is this your opinion or do you believe they have bases throughtout the solar system?

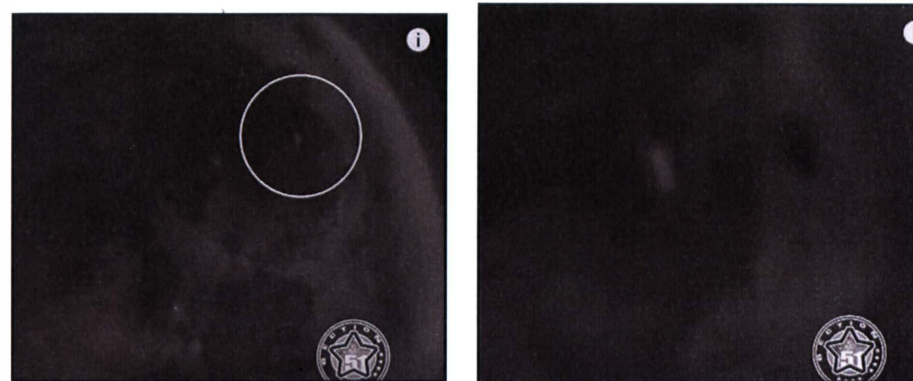

A: They have interim bases on our Moon. They live on these planets, with thriving societies, however, due to the declining condition of our solar system, they are in the process of transferring their populations to the next solar system ... but this will take many centuries still ...

Q: Both Adamski and your Father Fred Steckling were in contact with the spacebrothers. Does your mother Ingrid and you, also have contact with the spacebrothers?

A: We were fortunate to have met and interacted with the space contacts of Adamski during his times on the East coast during the last two years of his life. My entire family have witnessed them then and since have, on occasion, enjoyed the great privilege of their presence over the decades which have followed. We do not arrange these interactions, for ONLY THEY decide when, where and if - and such contacts are always with a specific purpose ..... NO ONE can truly claim they can dictate or summon the space people when they may come or have contact ... for if they do, they are liars..... Lastly, Time is not an issue for them, therefore, over the decades we have aged noticeably, but they appear relatively the same as they did 40 years ago.

## More UFOs at September Eclipse

The spectacular recent total lunar eclipse has produced its usual crop of UFO sightings, which appeared on the web almost immediately after the event. The best was probaby of the eclipse viewed from France, where a cigar-shaped object is seen crossing the reddened lunar disc. As it is also reddish, though lighter than the area it is crossing, it would appear to be something actually crossing the lunar surface. If so, it is very large and travelling very fast. It is not clear if it was visible crossing the sky

leaving the Moon's disc at the end of its run, as the edge of the Moon was not in shot when it went beyond the frame, although the visible area was moved to show sky immediately afterwards, but the UFO was not visible there. This video was on YouTube and can be seen at <https://www.youtube.com/watch?v=RUv8I8LoH0I>

The other UFOs reported were in the sky near the eclipsed Moon.

## UFO filmed during Super Harvest Blood Moon Eclipse - Sept, 28 2015

September, 28 2015 - Seen from France. In the US, Canada, and Central and South America, this rare Total Lunar Eclipse of a Supermoon September 27, 2015. In Europe, South/East Asia, Africa, the Arctic, and in the Pacific, Atlantic, and Indian Oceans it started after midnight on September 28, 2015. Also called a Blood Moon this eclipse lasted for about 1 hour and 12 minutes.

**Blood moon UFO? Family watching lunar event stunned as strange shape darts across sky**

**BY RUTH HALKON**

YouTube user George Tamaras posted a video of this mysterious UFO darting across the sky.

It is shown glowing white, flashing brightly and disappearing before appearing in another part of the heavens.

The object also seemed to emit a strange wailing noise which left the watcher baffled and scared.

The supermoon was caused by a lunar eclipse happening at the moment the moon reaches its shortest distance from us, 226,000 miles away, making it appear 14 per cent larger and 30 per cent brighter than when it is at its furthest point.

The last time this coincided with a lunar eclipse, when the moon is covered by the Earth's shadow, was in 1982 and the event will not be repeated until 2033.

During a lunar eclipse, the moon turns a deep rusty red as sunlight is scattered by the Earth's atmosphere.

### Massachusetts UFO

Date of sighting: Sept 27, 2015

Location of sighting: Springfield, Massachusetts, USA

Source: MUFON .

Here is a cool sighting of an object near the moon during the eclipse. The object was seen with the naked eye and in the photo it looks like a partially visible disk.

Eyewitness states:

My husband and I kept going outside to see the different phases of the eclipse last night (Sept. 27 2015). We saw that high above the moon was a very bright object. Very very bright, we thought maybe it was a planet or star or something like that. Then we realized it looked like it was reflecting the light of the moon.

Over 20-25 minutes it descended and then was just gone. I took sev-

eral pictures of it with my cell phone. We have a friend in Colorado who was also watching the eclipse and he didn't see anything in the sky like what we saw. At first I assumed it was some natural phenomenon but the more we watched the less it looked like anything else I have ever seen in the sky.

Looking back at the pictures I still can't be sure what it is, that is why I am filing this report. We looked outside every few minutes, it kept getting lower and lower...seemingly closer to the moon and then it disappeared. I made a collage photo of some of the different elevations...the third pic in the collage is just a cropped version of one of the others. I have several pics on my phone if you would like anymore. I added one of the single pictures, currently having trouble uploading the rest...but I have them and can send later if you want them.

A lady I work with saw and photographed the same thing. She showed me this morning and I kind of laughed it off but this is making me think twice.

### White dot UFOs

While going through my old videos recently I found several pictures of "white dot UFOs", some of which I had taken, appearing on photographs and in one occasion on film. This last was a picture of Concorde taken sometime in the 1980s, and a small white object is seen coming down past the aircraft, then going up again. Strangely, when I had a flight in Concorde in 1991, a white dot appeared on a picture I took out of the window. We were flying supersonic at the edge of space over the Bay of Biscay.

Earlier, I had had a balloon flight in which we rose above the cloud, and a white dot object appeared on a photograph I took, which appeared against the background of cloud.

In 1987, the day after the high winds that caused damage over a wide area of England, I had seen a white dot UFO, but on this occasion did not photograph it. It was over the buildings at Plessey Radar in Addlestone where I was then working. The wind had subsided but still fairly brisk and the clouds were moving *My picture from Concorde* fast across the sky. The object was motionless against a blue sky in spite of the wind moving the clouds - then a cloud covered it and when it

had moved, the object was gone.

In 1992, the education unit where I was then working bought a Dartcom weather satellite system, which brought down live pictures from the Meteosat satellite. On March 1st at 4.30 I saw a white dot on part

*Meteosat picture*

of the area that was cloud covered - nothing like it was noticed on any other of the pictures. When I zoomed to enlarge it, dotted overlays appeared representing the land masses not visible beneath the clouds; this indicated its position, which was off the coast of Ireland. The fact that the overlays did not appear in normal mode showed it was not a rogue overlay dot, and it was more solid white than they were, and rounder. The fact that it was not on any other showed it was unlikely to be a ship or aircraft.

**UFOs and the Complete Evidence from Space - The Truth about Venus, Mars, and the Moon, by Daniel Ross, published by Pintado Publishing, P.O. Box 3033, Walnut Creek, Ca. 94598, U.S.A.**

This remarkable book was published in 1987, but for some reason has never become widely known in the UFO world. Written by an ex United States submariner, it presents compelling evidence that the cosmology put forward by George Adamski is a true picture of the Solar System and the Universe, and that powerful factions here on Earth have gone to extreme lengths to give the public a very different view.

The book considers Mars, the Moon and Venus separately and in detail, and shows evidence that they are all living environments. Several photographs of Mars were published in the book, the most spectacular being one of Olympus Mons, showing extensive cloud cover and green areas - a very Earthlike environment in fact. The first Viking photograph is also there - showing a blue sky. The significance of this was not realised at first, but it was quickly denounced as false colour and replaced by lurid pink pictures.

The Moon's gravity is apparently much greater than the one-sixth Earth gravity that is accepted by orthodox science, and the whirls and leaps predicted for astronauts never happened. The astronauts were seen as "bouncing" because the video was slowed down to give this effect, but they did not reach appreciably greater heights than they would have on Earth. Also, the sight of stars from the Moon is evidence for its atmosphere. Astronauts have mentioned the fact that most stars are not visible from space - it would

*Picture from balloon*

seem to be our atmosphere that makes most of the fainter ones visible by acting as a giant lens. This again was previously stated by Adamski when he said the background of space is totally dark. Also, soil from the Moon has grown plants, and I have seen reports of this in newspapers, but the fact was soon quashed by the censors.

Venus seems to be the planet which is most similar to Earth, despite the statements of the most extreme sulphurous conditions. Russia's Venera landers showed a landscape bathed in sunlight, and none of the weird upward-curving horizon effects that were expected. They were also not pressure vessels like those sent later by NASA, yet sent back information. In fact it would seem that the sulphurous detection by Pioneer was caused by monitoring a major volcanic eruption, and these findings have been accepted as the norm ever since.

The other planets too, although not mapped by our probes so intensely, were shown to have much better environments than expected. The description by Adamski of the asteroid belts acting as cathodes to boost solar radiation to give the outer planets habitable temperatures was confirmed by Voyager I in 1978 which found the area just beyond the known belt was the "hottest" place in the Solar System.

So the picture of the Solar System which has become "carved in stone" would seem to be very different from the true situation; which would seem to be much more like that described by George Adamski. The book is packed with evidence of all kinds for this. This is good news in that it shows that the space friends Adamski met were real people from our neighbouring worlds, but also it is very frightening that a faction on Earth could have such international power that it can give such a totally false picture of the Universe to the whole world for its own selfish purposes.

## **THE HIDDEN UNITY and BEGINNINGS**

*The Hidden Unity* looks at the strange phenomenon of subconscious siting of ley points, and notes that places of worship, of all religions and all ages, tend to predominate on leys. The environmental and philosophical implications of this are discussed, and the apparent necessity of worship but irrelevance of doctrine. Two ley centres are given as examples, and investigated in depth - the Shah Jehan Mosque in Woking and the Guru Nanak Sikh Temple, Scunthorpe. There is an appendix by Eileen Grimshaw on the significance of the Pagan religion to this study. Illustrated with photographs, maps and line drawings. **£2 plus 30p p&p from the Amskaya address. Please make cheques payable to J. Goddard.**

*Beginnings* is about a series of potentially useful discoveries, mainly made by Jimmy Goddard over a period of about twenty years, but having some overlap with discoveries made by others. For various reasons, the investigations are all in their early stages, and some have not been continued. They include earth energy detection, natural antigravity, subconscious siting, ley width, and the solar transition effect. There is also a chapter on cognitive dissonance - a psychological factor which seems to have been at the root of all bigotry - scientific, religious and other - down the ages. The booklet is concluded with an account of the discovery of leys by Alfred Watkins. **£2 plus 30p p&p from the Amskaya address. Please make cheques payable to J. Goddard.**

## **EARTH PEOPLE, SPACE PEOPLE**

In 1961, Tony Wedd produced a manuscript *Earth Men, Space Men*, detailing many claims of extraterrestrial contact. It was never published, and I had thought it was lost, though it has recently been located - Tony had given it to Timothy Good. To try to make up for the loss in a much more modest size, this booklet was prepared. As well as giving details of some of the more prominent contact claims, there are articles on the history of the STAR Fellowship and some of its personalities, evidence for life in the Solar System and investigation into extraterrestrial language.

**£2 plus 30p p&p from the Amskaya address. Please make cheques payable to J. Goddard.**

## **THE LEGACY OF TONY WEDD**

This CD-ROM is an electronic form of the travelling exhibition Tony planned, using his voice, writing, photographs and drawings to illustrate his research and findings in the fields of flying saucers, landscape energies and lost technology.

**£9.99 from the Amskaya address. Please make cheques payable to J. Goddard.**

**AMSKAYA** is the newsletter of the STAR Fellowship, a continuation of the organisation formed in 1960 by Tony Wedd of Chiddingstone, who held that contact was the way ahead for flying saucer investigation. **£4 for four quarterly issues from J.
